The Hypothesis Mount Veeder Malbec comes from a beautiful site that sits high above the valley floor in the Mayacama Range. Typically a blending grape for our Higher Education Reserve Series, we felt 2019 afforded us the perfect opportunity to make a stand-alone wine. This wine has incredible depth and complexity, wild fruits and roasted meat aromas leap from the glass. This wine delivers a brooding finish packed with black fruits and elegant tannin structure to round out the final sip.
